

FISCAL NOTE

HB 3918 – SB 4112

February 27, 2008

SUMMARY OF BILL: Applies liability limitations of Governmental Tort Liability Act to entities that contract with a regional transportation authority for provisions of transport services or the operation or maintenance of facilities associated with the Authority.

ESTIMATED FISCAL IMPACT:

Other Fiscal Impact – Applying governmental tort liability limits to such entities may result in a decrease in state expenditures due to lower contract costs for the Authority. The amount of such decrease cannot be reasonably quantified due to the varied size of contracts, variables in potential tort claims and the projected cost of such contracts in the absence of this bill.

Assumption:

- Applying governmental tort liability limits to regional transportation authorities will decrease the liability of these entities for various tort claims and will reduce contract costs.

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

James W. White, Executive Director
